REGISTERED COTTON SEED

1961 spring prices on Breeder's Registered seed, delinted and treated, sacked in 100-lb. branded, cotton bags, f.o.b. Darlington, Ala., are as follows:

Deltapine Smooth Leaf, released 1957, the World's First commercial smooth leaf cotton (almost hairless on underside), specially designed for machine harvest. It and Fox 4 outyield D&PL 15 9% for 9-year average at Breeder's. Fox 4 is early maturing, "fruits" long, more tensile strength, good tolerance to wilt, easier to pick.
\$Deltapine Smooth Leaf runs 80% germination.
